Price List of Pecan Trees

B. W. STONE, Nurseryman

1923-1924

Thomasville, Ga.

Dear Pecan Grower:

Under the present boll weevil conditions, what looks more promising than a pecan grove?

Under the present fruit and grain crop conditions, what looks more promising than a pecan grove?

Under the present labor conditions, what looks more promising than a pecan grove?

Don't put off planting for a year for the trees can be growing while you are waiting and contending with labor, truck crops, boll weevils and strenuous times. All cannot plant for the times are too hard. This will make your grove more profitable.

A well kept pecan grove doubles in value every 4 years until it comes into full fruitage at 15 years.

Ask your neighbor to join you in ordering.

Will send "The Pecan Business for Profit and Pleasure" free to all the names you will furnish us who are interested in pecans.

Note prices and testimonials below.

Experience teaches us how to grow trees cheaper and every tree true to name and so guaranteed, and we give our customers the benefit of reduced price.

Send \$2.00 to the American Nut Journal, Box 124, Rochester, N. Y., the best Nut Journal in the U. S., and keep informed on all phases of the nut industry. It is the official organ of the "National Pecan Growers Association."

We are members of the "Southern Pecan Growers Association," a co-operative association on the Aaron Sapiro plan, same plan as the cotton, peanuts and other successful co-operative associations. Sell your farm products co-operatively or quit growing them. Write for further information on selling pecans.

Kindly send names of parties interested in pecan growing that they may get booklet. Also send names of growers that we may assist them in securing the best market for their pecans. This in turn will aid you.

	Each	10	100
1 to 2 ft.....	\$ 70	\$ 6 50	\$ 50 00
2 to 3 ft.....	90	8 00	70 00

8 to 10 ft.....	1 90	16 50	155 00

VARIETIES—Schley, Stuart, Success, Moneymaker, Pabst, Brooks, Delmas.

Livingston, Ala.

Dear Sir: Your booklet "The Pecan Business," received last evening in the 9 o'clock mail and I read it through before retiring. I planted a pecan grove of paper-shell seedlings in 1886 and have since then planted 400 trees of the best budded and grafted varieties. I believe this long experience puts me in position to judge the merits of anything written

about pecan culture, and I am frank in saying that your pamphlet, "The Pecan Business," has the marks of an honest, truthful man stating the facts as they are relative to an important industry in the South. Your advice is entirely dependable, helpful, in fact inestimable, in value to those persons who contemplate engaging in pecan culture.

(Later—Jan. 8, 1916.) Please ship me 235 budded pecan trees, 3 to 4 feet. I will want a large quantity next year.

W. J. McCAIN, M. D., Municipal Health Officer.

Natchez, Miss.

Dear Sir: The trees came safely and I want to thank you for sending me such beautiful trees. I have bought some 300 or more trees from five different nurseries and none have ever sent trees that would compare with yours. I will need a few more this season. Thanking you to send your booklet, "The Pecan Business," to the following names, and again thanking you for the fine trees shipped me, I am.

J. E. O'KELLY.

Centreville, Miss.

Dear Sir: The pecan trees bought from you eight years ago have matured four crops of nuts and they have a fine crop on them again this year. I have bought pecan trees from several nurseries, but yours have given better results than any I have tried and shall place another order with you soon.

JOS. REDHEAD.

Jesup, Ga.

Dear Sir: I beg to enclose herewith my check for the fifteen trees. I am very much pleased with the looks of the trees for they are decidedly the best I have been able to get,

ROBERT L. BENNETT.

Long Beach, Miss.

Dear Sir. Your favor of some weeks ago, also a copy of your "The Pecan Business," duly received, the latter the most comprehensive piece of reading matter I've seen bearing on the subject; right to the point and full of meat, just like a good pecan.

E. W. THURMAN.

Dear Sir: Mr. G. W. Lee Woods, of Del Rio, has some pretty pecan trees and said he bought them from you. He is pleased with them, and they are better than other pecan trees he has secured from other places. I am thinking I might want some trees. Will you please send me a list of your trees and the price.

N. H. ROSE, Del Rio, Texas.

Albany, Ga.

Dear Mr. Stone: I have read your booklet entitled "The Pecan Business" with a great deal of pleasure and not a little profit. It is the best guide to the proper development of a pecan orchard that I have seen and is modestly and delightfully written, reflecting the many sterling and pleasing qualities of its author. Trusting that your portion of "True Elixir" will be ever increasing and with kindest personal regards, I remain, yours sincerely,

F. S. CROCKER.

B. W. STONE.
